

Sales Director

Job Title	Sales Director	Location	Greater Noida
Department/Group	Management	Position Type	Full Time
Job Description			
The Sales Director will lead VoltWorks' commercial function and own the company's revenue growth. This is a senior, hands-on leadership role with a clear mandate: scale annual revenue from ₹12 Cr to ₹20-25 Cr. We are looking for a sharp, entrepreneurial, and results-driven leader who can build and lead a high-performing sales team, win new OEM and institutional accounts, and own the full sales lifecycle from lead generation and order closure to delivery coordination and payment collection. You will act as the bridge between customers, the sales team, engineering, and operations, ensuring smooth communication, timely execution, and consistent, repeatable revenue growth. About VoltWorks VoltWorks Technologies Private Limited is a dynamic company at the forefront of the Indian electric vehicle industry. Founded by talented alumni from prestigious institutions like IIT Delhi and IIT BHU, we are driven by innovation and collaboration. With our German and South African teams, we are constantly solving challenges and pushing the boundaries of motor and controller development. If you're ready to be part of our exciting journey, we invite you to come aboard! Key Responsibilities Revenue Growth & Strategy • Own the revenue target and the plan to hit it, scaling annual revenue from ₹12 Cr to ₹20-25 Cr, broken down into quarterly, monthly, and account-level targets. • Design and execute the go-to-market strategy across segments: direct OEM sales, aftermarket/spares, and institutional/tender business. • Drive OEM design wins, get VoltWorks motors and controllers designed into customers' vehicle platforms. • Own pricing, margins, and commercial terms in coordination with Finance. Sales Team Leadership & Management • Recruit, structure, and lead a growing sales organization i.e field sales, inside sales, key account managers, and channel/dealer partners. • Set individual targets, quotas, and incentive structures; run a disciplined performance-management rhythm (weekly reviews, monthly business reviews). • Coach and develop the team, turning a small field team into a high-performing engine as revenue scales. • Implement CRM and pipeline disciplinary so forecasting is reliable and repeatable. Customer, OEM & Key Account Management • Personally own the largest and most strategic accounts. • Build long-term relationships with EV OEMs, fleet operators, and institutional buyers. • Manage the full B2B cycle - technical qualification, sampling/validation, negotiation, and long-term supply agreements.

Sales Operations, Forecasting & Collections

- Build the reporting and pipeline systems that give leadership real visibility into the funnel.
- Own accurate forecasting and demand signals for the Operations and Supply teams.
- Take ownership of receivables and collections health, a sale isn't complete until the payment is in.

Cross-Functional Coordination

- Partner with Engineering/Product to bring customer requirements into the roadmap and support technical sales.
- Work with Operations to align supply, lead times, and delivery commitments with what is sold.
- Work with Finance on pricing, margins, credit terms, and incentive design.

Required Skills & Qualifications

- Bachelor's degree in Engineering, Business, Commerce, or a related field; MBA preferred.
- 5–10 years of experience in B2B / industrial / automotive / EV / electrical sales, with 3–5+ years leading sales teams.
- A proven track record of scaling revenue and delivering against aggressive growth targets.
- Strong domain fit: - EV, auto components, power electronics, electric machinery, or industrial equipment (EV/traction background strongly preferred).
- Demonstrated ability to build and lead teams i.e. hiring, target-setting, incentive design, and coaching.
- Existing relationships across the EV / automotive OEM and institutional buyer ecosystem.
- Strong command of CRM, forecasting, and pipeline management; comfortable managing by numbers.
- Excellent communication, negotiation, and stakeholder-management skills.
- Willingness to travel extensively across India to be in front of customers.

Preferred Qualifications

- Direct experience selling EV traction motors, controllers, or drivetrain components.
- Experience with government / institutional / tender-based sales.
- Experience scaling a business through its 0-to-1 / early-growth stage.
- Working knowledge of the Indian EV OEM landscape (2W / 3W / L5 segments).

What You'll Work On

- A genuine ground-floor leadership seat in India's EV growth story where you build the commercial function, not inherit it.
- Direct access to the founder and real ownership of the revenue mandate.
- Performance-linked variable compensation and ESOP participation.
- A fast-paced, high-ownership environment with strong engineering and product foundations to sell behind.
